

Sampling Nozzles

Polltech has a large selection of Nozzles of different shapes (right angle, straight and button-hook Nozzles) in multiple materials. Determining the size needed for isokinetic sampling depends on the stack gas velocity. Determining the material depends on the stack temperature and the sampling method. We provide technical support and can help with configuration.

Specifications:

Material	Shape	Available Sizes (ID)	Thread /Shank	Suitable for Temperature Range
SS304	Straight (for fixing to button-hook bend)	1/8"	1/2" BSP Female	1000°C
		1/4"		
		5/16"		
		3/8"		
		7/16"		
		1/2"		
SS304	Right Angle	1/8"	1/2" BSP male	1000°C
		1/4"		
		5/16"
